

ADRIAD

Cabin Air Filters

Application Guide 2020

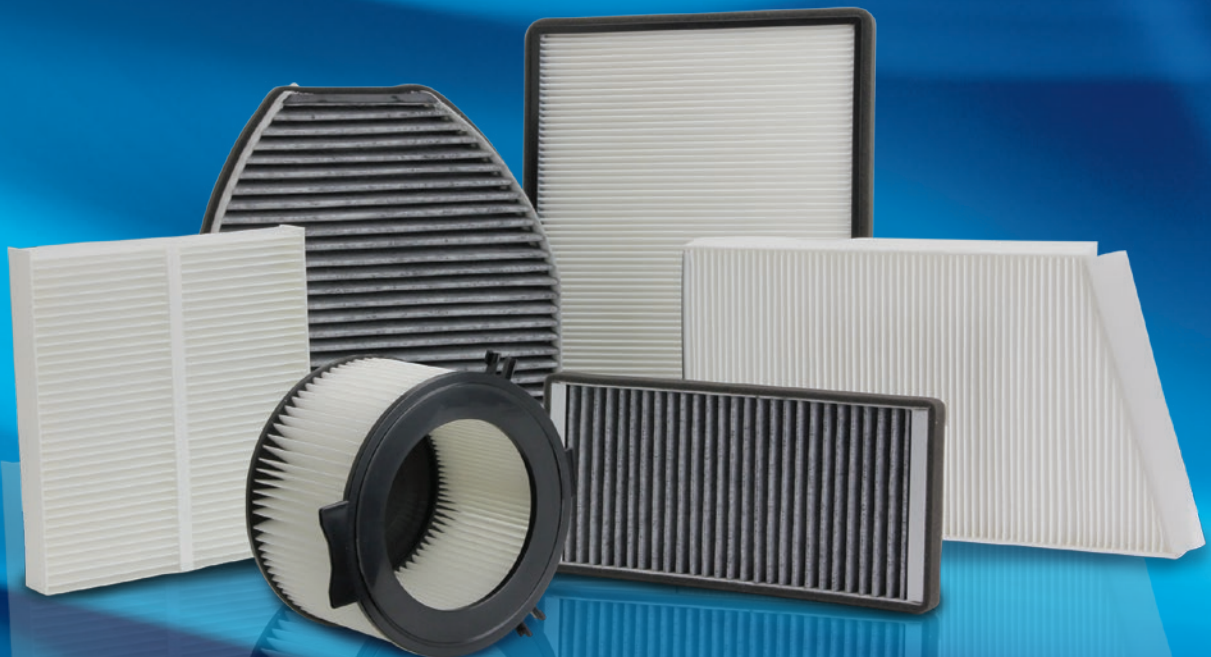

Our leading brands include

FRAM

Valeo

CATFA2020

Cabin Air Filters become clogged with dust, soot, dirt, bugs, leaves, mould spores and pollen, restricting your vehicle air conditioning system.

It is recommended to replace vehicle Cabin Air Filters every 15,000km /12 months.

Cabin Air Filters should be changed more frequently if:

- You frequently travel in heavy traffic.
- You often drive in dusty conditions.
- You have dust allergies.

These Cabin Air Filters meet or exceed OE specifications to provide optimum air quality.

Search for your Cabin Air Filter by Vehicle Make / Model.
