

FRAM

4WD FILTER KITS

KEEP THE DIRT ON THE OUTSIDE

Maximum performance & durability on & off road

For off road or every day driving, FRAM 4WD Filter Kits are optimized for both on and off road performance. The solution for complete servicing requirements, the FRAM 4WD Filter Kits contain Oil Filter, Air Filter, Fuel Filter, and Cabin Air Filter where required. The correct filter fitment for each individual vehicle is all in one box, with one reference number. Each FRAM Filter is manufactured to meet or exceed OEM specifications, with a warranty to meet OE specified vehicle service intervals, and will not void your new car warranty.

- **PROTECTS NEW CAR WARRANTY**
- **PRODUCT WARRANTY MEETS OE SPECIFIED VEHICLE SERVICE INTERVALS**

Kits include:

FRAM Air Filters

provide superior protection, for strenuous driving conditions, from idling in heavy traffic, to driving on dusty roads and towing heavy loads.

FRAM Fuel Filters

serve a vital function in today's modern tight-tolerance engine fuel systems. By removing rust and dirt particles from petrol or diesel, fuel filters protect fuel pumps and injectors from rapid wear and failure.

FRAM Oil Filters

are ideal for drivers who push their vehicles, whether in stop and go traffic, by towing, or driving in extreme weather conditions. FRAM Oil Filters continuously purify the oil in the vehicle, by filtering out and retaining abrasive particles, dust and combustion residue.

FRAM Cabin Air Filters

allow travellers inside the vehicle to breathe cleaner air by filtering out pollen, allergens, exhaust fumes, dirt and dust that enter the vehicle through the cooling/heating ventilation. FRAM Cabin Air Filters can eliminate up to 98% of these impurities, providing a more enjoyable ride.

ADRAD's FRAM 4WD Filter Kit Range

APPLICATION	PART No.
