

# NOW AVAILABLE OIL FILTER CAPS

Tridon Australia is proud to release the new range of OIL FILTER CAPS to provide your workshop with the highest quality replacement parts.

## FUNCTION

- Designed to seal and retain oil on cartridge style systems, the oil cap performs a critical role in the vehicle lubrication system
- To ensure the quality of a vehicle service, it is always best practice to replace the oil filter cap with the filter.

## QUALITY

- Manufactured from high quality, glass impregnated nylon or aluminium to ensure a suitable fit and extended life span.
- Manufactured in a TS16949, ISO9001 facility.

## VEHICLE APPLICATIONS

Tridon oil filter cap and Toledo cup removal tool LIVE application data is available on Tridon Part Finder, [tridon.com.au/partfinder](http://tridon.com.au/partfinder) for the most up to date new vehicle applications and part numbers.

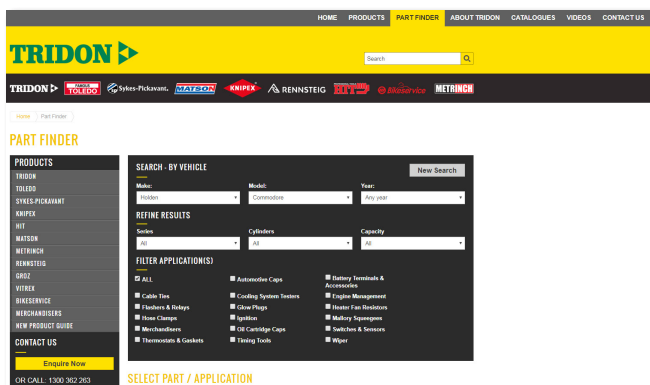

Tridon oil filter cap applications and specifications are also available on the major trade electronic catalogues.

## RANGE

- Comprehensive range for vehicles on the Australian market
- More than 45 part numbers
- Supported by a range of Toledo Filter Cup removal tools. Listed on Tridon Partfinder to easily find the right tool for the job
