WHY YOU SHOULD ASK FOR ADRAD

PROUDLY AUSTRALIAN

Adrad is a proudly Australian owned company with manufacturing facilities in a number of locations around Australia and New Zealand. We are recognised as the leader in our field of automotive, industrial & high performance cooling products.

QUALITY

Having been one of the first Australian manufacturers to achieve the international ISO9001-2009 quality certification, Adrad's continued dedication to quality has seen our company advance to the new, more comprehensive ISO9001-2015 accreditation.

This accomplishment has been achieved thanks to Adrad's stringent approach to quality assurance which involves thorough attention to detail from ordering through to delivery, for both the parts we manufacture and for those we source from our partner suppliers around the world.

RANGE & DISTRIBUTION

Adrad products are stocked in over 35 branches, warehouses and distribution centres across Australia and New Zealand, offering the largest range of radiator and air conditioning products from components to complete assemblies. This means we are more likely to have the part you need in a location near to you.

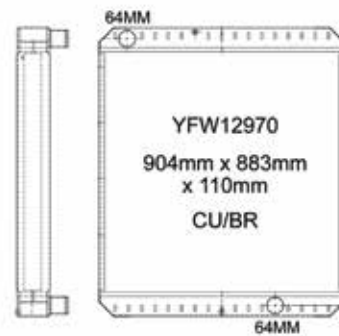

**DON'T SEE WHAT YOU ARE LOOKING FOR?
WE HAVE THOUSANDS OF CORE CONFIGURATIONS TO SUIT ANY AGRICULTURAL NEED... JUST ASK US**

AGRICULTURAL CHARGE AIR COOLERS

IF YOU DON'T SEE WHAT YOU ARE LOOKING FOR, WE ALSO HAVE OTHER CONSTRUCTION TYPES TO SUIT YOUR REQUIREMENTS...

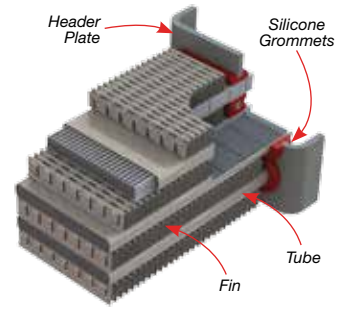

BAR & PLATE

The sturdy, all-alloy construction is able to handle high operating pressures and can be used for cooling air, water, oil and fuel. Heavy duty construction materials also provides the additional advantage of making the unit easy to repair.

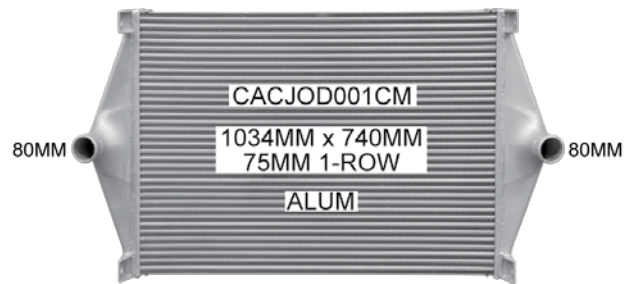

ADSEAL

ADSEAL® is a flexible tube to header joining system that accommodates core expansion/contraction through temperature cycling and also absorbs vibration. Ideal for Heavy Duty On Highway applications.
