WORK LAMPS FOR PROFESSIONAL USERS

NOW AVAILABLE

HELLA NOVA R COMPACT LED

The ultra-slim, compact NOVA R is a rechargeable worklamp featuring very high light output (up to 1500 lumen) with uniform illumination at 5 brightness levels. The sturdy die-cast aluminium housing is resistant to shock and vibration.

The easy-to-carry stand is equipped with powerful magnets for easy mounting onto metal surfaces. The built-in power bank with USB outlet can be used to conveniently charge mobile devices.

HELLA NOVA 3K, 5K & 10K

These universal, all-round work lamps are rechargeable, and can also be used with a cable.

These lamps feature:

- CR Value close to daylight
- Housing made from robust die casted aluminium, resistant to shock and vibration.
- Safe to use in all weather conditions
- 5 brightness levels - the 10K model allows Bluetooth control for up to 4 lamps from any iPhone 4S / Android 4.3 or higher.

Features

- Ultra-slim and compact design
- Light dimmable in 5 steps
- Bracket with magnetic function
- Built-in power bank
- Durable for rough service use

COMPRESSORS

**MORE RESISTANT.
HIGHER OUTPUT.
NO WORRIES.**

At DENSO we've taken everything we have learned as an OE manufacturer and applied it to our aftermarket product lines. Every component that leaves our factory has been designed with precision, manufactured to OE standards and subjected to rigorous safety and performance tests.

THRUST BEARING - Structured to withstand stress for maximum durability.

VALVE SHAFT & SWASH PLATE - Designed with a lightweight aluminium alloy for added strength.

UNIQUE RUBBER HUB - Reduces noise & vibration.

WORLD LEADER IN COMPRESSORS - DENSO has over 40% OE market share.

Welcome

*Steve Vassallo
Business Development Manager
– Air Conditioning*

Welcome to another edition of The Fridge.

First, I would like to thank Ian Strangroome, VASA president, and the VASA Board for a successful conference on the Gold Coast in August.

for the three day event, which was attended by over 200 technicians from across Australia and New Zealand.

In August, Adrad released an Australian first Quality Adrad Air Conditioning Compressor Kit, with a 3-year nationwide warranty!

Many customers have purchased these kits since the release. We have received positive feedback on the ease of ordering, and the quality of the components that are included to complete the job, saving both time and money.

If you are not aware of these kits and would like a copy of our fitment guide brochure you can contact customer service by phone or email to have us send you one.

It's packed with thousands of parts for all vehicles, with over 800 pages set out in make & model format for ease of ordering.

Our customers are the key to our success, and we value your feedback, comments and requests for products you would like us to carry.

Please email us any time at: product@adrad.com.au

Keep on reading "The Fridge" packed with information on other products.

About Adrad

Adrad is an Australian owned company founded in 1985. The photo above shows the Head Office, located in Beverly, South Australia.

Adrad manufactures and distributes radiator and air conditioning parts through our national distribution network of 22 warehouses and numerous outlets.

Adrad's name stands for quality. Our ISO 9001-2015 accreditation demonstrates this commitment to delivering the highest quality product.

Our air conditioning range is selected and produced by our dedicated staff to meet or exceed original equipment specifications.

The range includes compressors,

condensers, evaporators, valves, oil, switches and refrigerant gas, so you'll find everything needed to perform effective air conditioner repairs on passenger and heavy vehicles.

Our brands include AdAir, Valeo, Ariazone and Denso among other highly reputable names. Ask our product team if there's anything you'd like to see added to the range!

Feature: Barrie Auto Electrics

Deyan Barrie founded Barrie Auto Electrics in 1981 on Hornsby Street, Hornsby, NSW.

His store now employs three auto electricians, three mechanical technicians and a dual trade apprentice, and his wife, daughter and son-in-law are partners in the business.

The business has a community focus, with a commitment to transparent, frequent communication with customers.

Deyan is a passionate player in the

automotive industry. His notable contributions include time as president for the AAAE, a Board member of MTA for nearly two decades and a member of the VASA board until 2014.

In 2008, he was one of the four founders of the popular magazine The Automotive Technician, and continues to act as Technical Director for the publication.

In 2015, Deyan was awarded the

Pioneer Award in recognition of his contribution to the automotive service industry.

Adrad is proud to work alongside industry pillars like Deyan Barrie and we thank him for his significant contribution to the after-market automotive industry in Australia.

COMPETITION WINNERS:

David from Northside Auto Electrics was one of the many winners of the Hella Torch competition in the last edition of The Fridge.

Deyan Barrie won the coffee machine at the VASA Wire and Gas Show

Tech Tip

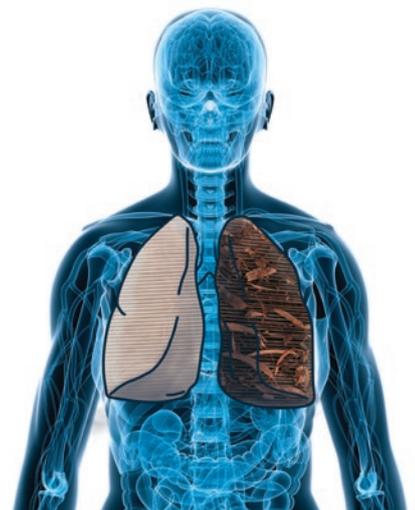

A/C Poor Performance? Breathe Easy!

Remember to check your customer's cabin air filter to make sure it's clean.

A dirty filter prevents optimal airflow which will result in poor cooling performance and can result in dust, mould spores, bugs and pollen being circulated in the cabin of the car.

In newer cars, cabin air filters are relatively easy to check and replace, generally the cabin air filter is accessible behind the glove compartment.

It is an easy up-sell when you highlight the importance of your customer and their family breathing fresh, clean air, honestly, its money for jam.

Valeo Wiper Blades

Adrad are now an exclusive Australian distributor of the Valeo HydroConnect wiper range.

The HydroConnect wiper range has fitments suitable for all major car applications.

New windscreen wipers give your customers something that they will

see and appreciate immediately, and it's one of the fastest ways you can generate revenue for your workshop.

High levels of UV and heat in Australia destroy the chemical structure of wiper blade rubber, so its recommended that car wiper blades are replaced annually for driver safety.

Upgrading to flat blade wipers from standard provides up to 30% improved aerodynamic performance.

The HydroConnect flat blade wipers deliver optimal visibility with high performance aerodynamics. These wipers feature 'plug & play' adaptors for easy fit to 12 different wiper arm styles.

Long lasting rubber and an asymmetric spoiler provide even pressure across the windscreen for flawless wiping even at high speeds.

The modern packaging is 100% recyclable and includes a handy measure to assist in selecting the correct new blade.

Valeo HydroConnect wipers can be purchased nationally. Find an Adrad stockist at radshop.com.au or call 1800 882 043.

optibelt MT-A (TUNI346) Mounting Tool For Elastic Ribbed Belts

This universal tool allows you to install belts quickly and professionally. Designed for easy handling, this tool is suitable for different pulley diameters and pulley types.

The optibelt MT-A mounting tool prevents over-stretching and belt damage, and includes an easy tool for uninstalling the old belt.

Presented in a sturdy plastic box, with detailed instructions the optibelt MT-A is designed for various types of vehicles and long-term use.

Product Talk with CJ

CJ Shaw

Category Manager - Air Conditioning

In the product team we've had another busy quarter with the release of over 60 new products and the expansion of two AC ranges: evaporators and blower motors.

We have expanded our evaporator range by 12 Adair branded part numbers to cover over 650,000 vehicles in the car parc. These are in addition to our strong range of Denso evaporators.

Due to customer feedback we also added a new range of Adair blower

motors, with over 24 new part numbers covering 220,000 vehicles across your popular Holden, Hyundai, Mazda, Nissan models, keep an eye out for these early in the new year.

Our sales representatives were lucky enough to visit Denso's Australian Head Office to undertake some technical product training on the AC system and compressors.

They spent a number of hours in Denso's state of the art training and testing facility and now have a good understanding of why Denso is truly a market leader with their high quality AC components.

Denso's range of product is tested locally by their highly skilled engineering team in Melbourne and have the support of Denso's worldwide team of experts, when you buy Denso you are buying quality.

Denso product training at Denso Australia

The launch of our game changing A/C Compressor Kits has been a huge success with a great take up so far, feedback has been overwhelmingly positive with customers finding it easy to up sell to the 3 Year Warranty to the consumer giving them the peace of mind and the need to only Replace it Once.

Adrad A/C Compressor Kits

Adrad is excited to announce the release of the heavily expanded A/C Compressor Kits Range, featuring an industry first 3 Year Warranty.

It's commonly accepted that even extensive flushing of the A/C system may not be enough to remove all fine particles that contaminate a vehicle A/C system.

- Micro-ports in parallel flow condensers found in 8/10 vehicles are 1 mm wide or less & too small to be effectively flushed.

- The filter drier is exposed to debris and cannot be completely flushed.
- Fine debris lodged in an expansion device cannot be thoroughly flushed.

Adrad A/C Compressor Kits provide the easiest and most reliable way to repair contaminated A/C systems. Compressor Kits include all the parts needed to completely restore the vehicle air conditioning system back to new condition.

What are the main benefits of using

Adrad A/C Compressor Kits?

- Adrad are so confident in the range that they offer an extended 3 year warranty, giving you peace of mind should any claims arise.
- Minimise (virtually eliminate) the risk of compressor failure down the track due to recontamination.
- No time wasted flushing contaminated parts. (Let's face it, you'll probably never get them completely clean).
- Just one part number includes everything you need, making ordering simple. There are 147 different A/C Compressor Kits available covering over 200 makes and models.

Adrad feels the extended 3 Year Warranty is a game changer and should further benefit repairers who are already performing the best practice of replacing contaminated parts and encourage the rest of the industry to follow suit to make it standard practice.

Application guides and signs are available. Call Adrad on 1800 882 043.

New Adrad Location Now Open

Adrad welcomes our new branch manager for Tasmania, Stephen Mitchell and Hobart warehouse supervisor Lewis Woodbridge to the newest Adrad branch location in Chesterman Street Moonah.

Stephen will be a great addition to our sales team. He has a wealth of experience plus local knowledge to apply as he oversees both Hobart and Launceston branches.

Expanding our footprint in Tasmania with warehouses in these two locations will provide faster delivery of parts to our growing customer base in the Apple Isle.

NEW

A/C COMPRESSOR ELECTRONIC CONTROL VALVES

When the cooling performance of a car fails, the electronic control valve may need replacing.

Adrad now stock electronic control valves from AdAir.

Find the range in RadShop or call 1800 882 043 to order.

Ask for your 2019 AC Catalogue

We're excited to announce that our 2019 Adrad Air Conditioning Catalogue is ready for Summer.

The catalogue features an easy to follow make/model layout and a fast-find index that provides fast navigation directly to the relevant page.

This means that when you order parts for a vehicle, you turn to just one section of the catalogue to find everything you need for the job.

The Adrad air conditioning products range includes thousands of after-market and

OE parts, fittings, tools, equipment, cabin filters and refrigerants.

With over 750 pages and around 3,500 part numbers, the easy to use format will make the new catalogue a valuable workshop companion.

Ask your rep for your copy to explore the complete, updated range of products featuring world-class quality brands.

The new catalogue is here! Our graphic designer, Emily, has worked hard to compile the extensive range of Adrad A/C products available in 2019.

Adrad Distribution Network

Adrad has a national distribution network of around 22 warehouses, carrying an enormous range of radiator and air conditioning products, from component parts through to complete assemblies.

We've recently added Adrad branches in Hobart and Launceston for even faster supply of parts to these regions. Dubbo branch will open in December 2018.

Adrad can supply parts fast anywhere in Australia, and provide prompt warranty support.
